Green Gives Support To Community Chest

Washington—AFL President William Green expressed confidence that AFL members will enthusiastically make their local Community Chest campaign "a real success."

Following is the text of his letter to Charles E. Wilson, chairman of the Community Chest:

"It is a pleasure to officially and personally endorse the Community Chest campaign which will be the most American campaign of the year. As you know, by convention action the American Federation of Labor has strongly reaffirmed our interest in and support of Community Chests and Congress."

"We have enthusiastically watched the widening appeal of Community Chests in all groups in the community, among their organizers, labor and management. Seeing labor at the front line, we have been particularly proud to see the participation of the American Federation of Labor and Congress of Industrial Organizations in planning for Red Feather agencies but also in volunteer activity in their programs."

"We also commend the trained and competent professional workers of Red Feather agencies whose guidance and assistance to individuals and to groups have been a strong asset in community welfare."

"We are confident that this year, as in other years, the members of the American Federation of Labor will wholeheartedly join with management and all groups to make the Community Chest drive a real success."
